

ENTERING GRADE 10 IN 2018: SUBJECT CHOICE

Please complete this form and return it to the Deputy Head (Academics)
by 11 September 2017

SURNAME, INITIALS.....HOUSE
(Block letters please)

All boys are required to take

ENGLISH

MATHEMATICS (or Maths Literacy)

a **SECOND LANGUAGE**

LIFE ORIENTATION

The second language taken would be a continuation of the second language studied in Gr 9. Indicate here: Afrikaans French

French can be ticked here **ONLY IF** the boy is exempt from the requirement of offering an African language

The decision about Maths versus Mathematical Literacy would be taken in conjunction with the Maths department, but it is probable that every boy would at least begin with Mathematics. Indicate here: Maths Mathematical Literacy

In addition, boys must choose three different subjects from the list below, indicating (with a tick) just one subject in each column.

Physical Science			
Life Sciences		Life Sciences	
		Geography	
		History	
		Accounting	
		Economics	
		Information Technology	
		Drama *	
		Visual Arts *	
		Music *	
			isiXhosa
			French

* It may turn out to be impractical for the school to offer these options in this column – but enter your preferred choices anyway

Notes

- (a) If Information Technology or Economics is chosen, boys will be required to write an aptitude test, and if that seems to indicate that the boy will struggle with the subject, he would be encouraged to consider an alternative.
- (b) A boy should not choose Physical Science or Accounting or IT if he is likely to take Mathematical Literacy. He cannot enter for the matric exam in Accounting or Physical Science if he is taking Mathematical Literacy.
