

Service Description

Extended Battery Service

Service Overview

Extended Battery Service (the "Service" or "Services") is available for select products (the "Supported Products" defined below) that are entitled to "Dell's Limited Warranty" and service contract coverage of greater than one year. Dell's Limited Warranty and service contract provides primary portable computer battery coverage for the lesser of either a 1-year limited warranty or the length of the limited warranty for the Dell portable computer with which the battery is shipped. This Service extends the term of coverage for the remainder of Customer's Limited Warranty and service contract up to 3 years by providing a replacement battery during the extended term in the event that Customer's primary battery experiences a failure. This Service is limited to one battery replacement during the extended term only and this Service Description terminates after the Customer receives a battery replacement or the Extended Battery Service period expires on the Supported Product, whichever event occurs earlier. Additionally, if the replacement battery sent by Dell to the Customer experiences a failure within 90 days after receipt, a subsequent replacement for that battery will be provided.

Supported Products: This Service is available on select Dell Precision™, Dell Latitude™ and Dell Vostro™ portable computer systems that are entitled with a Limited Warranty and service contract. This Service is not available on Dell Inspiron™ or Dell XPS™ portable computer systems. The Supported Product covered under this Service Description is identified on Customer's Dell invoice. A separate Service must be purchased by Customer for each Supported Product.

Please read this Service Description carefully and note that Dell reserves the right to change or modify any of the terms and conditions set forth in this Service Description at any time, and to determine whether and when any such changes apply to both existing and future Customers.
